Aldergrove and District Chamber of Commerce -  
Re: Car Wash

Stating that the operator of a proposed car wash had been told that this could not be connected to the sanitary sewer system and asking what the objection was.

Mayor Poppy stated that detergent, sand and grease from car wash operations could pose problems in the treatment plant, however, if these elements are extracted on the site, it would then be possible to connect to the storm sewers because there would be no pollution from this water.

On motion of Aldermen Breier and Blair a reply of explanation is to be forwarded to the Chamber of Commerce.
