Department of Fisheries -
Re: Kehler Chicken Farm

Stating that investigations had been carried out and there is insufficient evidence that the water is being polluted to the extent that it would be harmful to fish. The letter did suggest that if the water down stream is used for domestic purposes, the Department of Public Health might investigate this aspect.

On motion of Aldermen Barichello and Breier the question of pollution of this creek is to be referred to the Department of Health for investigation.
