

Sustainable Living and Transportation Brainstorming Workshop

Wednesday, June 18, 2008

6:00 pm - 9:00 pm

Room 2505 and 2510 - Kwantlen University, Langley Campus
20901 Langley Bypass

AGENDA – Final Draft (Subject to Change)

6:00pm – 6:15pm – Registration

6:15pm – 6:20pm – Quick Introductions of Audience

6:20pm – 6:25pm – South Fraser OnTrax (SFOT) Introduction

6:25pm – 6:30pm – SmartGrowth BC (SG) Introduction

6:30pm – 7:00pm – Presentation: What are sustainable communities and how do we build them? (SG)

7:00pm – 7:30pm – Group Exercises I: Sustainable Community Building (All)

Questions to Think About:

-How can we handle a doubling of the population in the South Fraser with a minimal impact on green space and ALR land?

-How do we build communities that focus on accessibility for all people, and not mobility?

-How can we build communities that reduce our carbon footprint?

-What kinds of development, and where should we be focusing our development, in the South Fraser?

7:30pm – 7:45pm – Review of Group Exercise Ideas (SG)

7:45pm – 8:00pm – Presentation: Building sustainable transportation systems in our community. (SG)

8:15pm - 8:30pm – The Interurban and Streetcars (SFOT)

8:15pm – 8:45pm – Group Exercises II: Sustainable transportation in our community (All)

Questions to Think About:

-What transportation modes (walking, biking, transit, driving) do you think are under-served in the South Fraser?

-Providing accessibility to all people (young and old), how do we need to change our transportation system?

-How do we build communities that support all modes of transportation? (Density, mixed use, etc.)

-“What would it take for you to stop driving your car?”

-Without thinking about budget, what kind of public transportation system would you like? Where would you put light rail, streetcars, busses, etc?

8:45pm – 9:00pm – Review and Wrap-up (SG & SFOT)

9:00pm – Workshop Concluded

**South Fraser OnTrax would like to
thank our sponsors of this event:**
